#### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, claim 1 is a system which is then stated as method in lines 10-11, which is confusing. See MPEP 2173.05(p).

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rogers (WO 95/29455).

As per Claim 1.

Rogers ('455) discloses:

at least one client computer having means to receive at least one request for a prescription refill, see figure 2 and figure 4A, means to store each prescription refill request, see figure 4A (store drug refills in memory) and means for processing said request, see figure 2;

a host computer, said host computer having means to process said prescription requests;

means for establishing a communication link between said host computer and each said client computer, see figure 4C (transmit prescription) and page 8, line 33 – page 9, line 15.

Application/Control Number: 09/398,131

Art Unit: 2161

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bush is the closest non-patent literature which discusses call in prescription refills and a host computer (similar to Charhut et al ('762)), but does not disclose all the limitations of the claims.

## Allowable Subject Matter

- 4. Claims 2-15 are allowable.
- 5. As per Claims 2 and 9.

The prior art of record, specifically Charhut et al ('762) in view of Jain et al ('647) does not disclose or fairly teach

receiving a request for a prescription refill facilitated by a client computer;

storing, at the client computer, the request until on-line communications with a host are established as claimed.

As per Claims 3-8, 10-15.

The claims which depend from the above allowable claims are allowable for the same reasons.

Art Unit: 2161
